Item No. 9 – Other Events

PetroGreen Secures ₱635.9 Million RCBC Financing for Capiz BESS Project

Yuchengco-led PetroGreen Energy Corporation (PGEC), through its subsidiary EcoSolar Energy Corporation (ESEC), signed an Omnibus Loan and Security Agreement (OLSA) with Rizal Commercial Banking Corporation (RCBC) for a ₱635.90 million project finance facility to partially fund ESEC's 20MW/40MWh Battery Energy Storage System (BESS) in Panitan, Capiz. RCBC is the lender for the facility, with RCBC Capital Corporation as Lead Arranger and RCBC Trust Corporation as Facility Agent and Security Trustee.

The 20MW/40MWh Panitan BESS construction now in full swing; showcases the first deployment in the Philippines of the Huawei Luna2000-5015-2S battery, helping set a benchmark for future battery energy storage installations in the country.

"EcoSolar's Panitan BESS project is being developed to help strengthen the stability and reliability of the Panay sub-grid," said PGEC Senior Vice President for Business Development and Commercial Operations Maria Victoria M. Olivar. "We are pleased to work with RCBC on this project, and we value their continued partnership in helping PGEC and EcoSolar deliver cleaner, more resilient, and more dependable power infrastructure for the communities and industries we serve." The project is on track for physical completion in August 2026, with testing and commissioning scheduled to begin in September 2026.

For RCBC, BESS technology offers a transformative solution to the Philippines' long-standing energy challenges by helping stabilize the grid and accelerate the transition to clean energy. "Through this financing, RCBC recognizes its role in supporting projects that mitigate rolling blackouts, address the intermittent nature of renewable energy, and reduce the country's reliance on fossil fuels. Our objective is to help provide Filipino households and industries with a more reliable, resilient, and affordable power supply and supporting the nation's climate goals," said RCBC Institutional Banking Group Head Elizabeth Coronel.

The milestone marks PGEC's first BESS venture and the fourth PGEC project financed by RCBC and arranged by RCBC Capital within the past three years. It further underscores the shared commitment of PGEC and RCBC, both members of the Yuchengco Group of Companies (YGC), to advance a more reliable power system in the Philippines.

About ESEC
EcoSolar Energy Corporation (ESEC) is a special purpose company of Yuchengco-led PetroGreen Energy Corporation (PGEC), the renewable energy arm of publicly-listed PetroEnergy Resources Corporation (PERC). ESEC initial projects include the 20MW / 40MWh Panitan BESS project and the planned ~90 MW_{DC} Panitan Solar Power Project in Capiz. For more information, visit www.petroenergy.com.ph.

About RCBC
RCBC (Rizal Commercial Banking Corporation) is one of the top banks in the Philippines. Currently ranked as the fifth largest privately owned bank in the country, RCBC offers a full range of financial products and services to individuals and businesses nationwide for 65 years and counting. As a trusted bank in nation-building, the bank continues to be at the forefront of sustainable financing, supporting projects and initiatives that drive long-term economic growth.
