PetroEnergy's Group 3Q Net Income Up by 38%

PetroEnergy Resources Corporation's (PERC) 3rd quarter 2021 consolidated net income improved by 38% to P158MM from P115MM over the same period last year. Net income attributed to equity holders of PERC jumped by 115% to P89MM from P41MM in 3Q 2020.

PERC, a member of the Yuchengco Group of Companies (YGC), is engaged in petroleum exploration and production in Gabon, West Africa and renewable energy (RE) development in the Philippines. PERC's RE holding unit, PetroGreen Energy Corporation (PGEC), operates five power stations in the country through three operating companies – the 32MW Maibarara geothermal project by Maibarara Geothermal Inc., the 70MW Tarlac solar project by PetroSolar Corporation, and the 36 MW Nabas-1 wind project by PetroWind Energy Inc.

PERC's consolidated net income as of 3rd quarter 2021 has reached P544MM, 30% higher than last year's P417MM while net income attributed to equity holders of PERC also increased by 60% from P203MM to P323MM. Driving the significant increase in profits were the rise in crude oil price over the same period from US\$ 43.22/bbl to US\$ 72.86/bbl and higher electricity sales from its Tarlac solar and Nabas wind power plants.
